

Customer Case Study: National Fair Housing Alliance

About National Fair Housing Alliance

Founded in 1988 and headquartered in Washington DC, the National Fair Housing Alliance (NFHA) is the only national organization dedicated solely to ending discrimination in housing. NFHA works to eliminate housing discrimination and to ensure equal housing opportunity for all people through leadership, education and outreach, membership services, public policy initiatives, advocacy and enforcement. For more information, visit <http://nationalfairhousing.org>.

The Challenge

Tracking time manually with an Excel spreadsheet became an overwhelming and time consuming task for the NFHA staff. NFHA Vice President of Finance Angela Oehlerking reviewed the different product offerings in the marketplace and determined that Journyx has the features that NFHA needs, including cost centers, notes, comments, the ability to pull reports with specific criteria or within certain dates, and the ability to drop the data into an Excel spreadsheet if necessary.

NFHA uses Timesheet for time tracking and project management, and imports the data into their accounting system for use in payroll, billing and invoicing.

"...Timesheet provides thorough information and the reporting and importing processes are easy to manage.

This time-saving is reflected in the cost of our overhead. We are probably saving ½ person in accounting (or about \$25,000)."

***— Angela Oehlerking,
Vice President of Finance, NFHA***

The Journyx Solution

"Journyx really makes tracking time and doing payroll much more manageable," says Oehlerking. "The software allows staff to enter time either at the office or on the road. Accounting can import monthly information for entry into the general ledger. Any department can pull data by date, user and cost center as needed. Department managers can review and approve their staff's time with Timesheet's approval process."

Oehlerking says that most of the savings they've seen from Timesheet have been related to the time required to gather and process the data. "We know that Timesheet provides thorough information and the reporting and importing processes are easy to manage. This time-saving is reflected in the cost of our overhead. We are probably saving ½ person in accounting (or about \$25,000). Therefore, we can now get other tasks and duties done more quickly and in a timelier manner."

About Journyx Timesheet

Journyx Timesheet is a timesheet and expense management solution that enables organizations to automate management of employee time and expenses for project control, customer invoicing, and payroll processing. Journyx offers patented technological solutions — not just generic tools — that are flexible, adaptable and free to try, in order to help companies identify profit opportunities along the per-person, per-project continuum.

About Journyx

As the creator of the web-based time tracking industry, Journyx carves out its own path, while guiding customers to their goals and destinations. Journyx helps customers reach the highest levels of profitability by automating labor-intensive, paper-based processes with a superior, Web-based solution. Founded in 1996, Journyx is the *first and only* company to establish Per Person/Per Project Profitability (P5), a proprietary process that enables customers to gather and analyze information to discover profit opportunities. Journyx has thousands of customers worldwide, including American Airlines, Bayer, AC Nielsen, L'Oreal, The Discovery Channel, Schlumberger, Capstone Turbine and many others. Journyx solutions are available both as software-as-a-service (SaaS) and on a standard license basis. For more information, go to <http://pr.journyx.com> or contact Journyx at (512)834-8888 or info@journyx.com.
