

Customer Case Study: SafeNet

About SafeNet

SafeNet is a global leader in information security. Founded 25 years ago, the company provides complete security utilizing its encryption technologies to protect communications, intellectual property and digital identities, and offers a full spectrum of products including hardware, software, and chips. UBS, Nokia, Fujitsu, Hitachi, Bank of America, Adobe, Cisco Systems, Microsoft, Samsung, Texas Instruments, the U.S. Departments of Defense and Homeland Security, the U.S. Internal Revenue Service and scores of other customers entrust their security needs to SafeNet.

The Challenge

After years of relying on paper timesheets, SafeNet realized that this was not an efficient or particularly accurate way to track their employees' time. SafeNet sought a time-tracking system that would facilitate the generation of reports and would work with other tools like Excel or Business Objects without a lot of heavy lifting on their end.

"Journyx provides us with the information that we need at the push of a 'Report' button."

***– Chris Dunn,
VP Engineering, SafeNet***

The Journyx Solution

SafeNet uses Journyx Timesheet to track vacation and sick leave along with employee time spent on Engineering projects. Timesheet's flexibility was of particular importance to SafeNet. The management of SafeNet uses the Report feature to generate a report and export the data to Excel. These reports provide the Finance department with more timely and accurate insight into the progress of new Engineering projects and the cost of maintenance for legacy products.

"The most important result to us is the time savings," said Chris Dunn, VP Engineering – Identity Management Products at SafeNet. "Journyx provides us with the information that we need at the push of a 'Report' button."

About Journyx Timesheet

Journyx Timesheet is a timesheet and expense management solution that enables organizations to automate management of employee time and expenses for project control, customer invoicing, and payroll processing. Journyx offers patented technological solutions — not just generic tools — that are flexible, adaptable and free to try, in order to help companies identify profit opportunities along the per-person, per-project continuum.

About Journyx

As the creator of the web-based time tracking industry, Journyx carves out its own path, while guiding customers to their goals and destinations. Journyx helps customers reach the highest levels of profitability by automating labor-intensive, paper-based processes with a superior, web-based solution. Founded in 1996, Journyx is the *first and only* company to establish Per Person/ Per Project Profitability (P5), a proprietary process that enables customers to gather and analyze information to discover profit opportunities. Journyx has thousands of customers worldwide, including American Airlines, Bayer, AC Nielsen, L'Oreal, The Discovery Channel, Schlumberger, Capstone Turbine and many others. Journyx solutions are available both as software-as-a-service (SaaS) and on a standard license basis. For more information, go to <http://pr.journyx.com> or contact Journyx at (512)834-8888 or info@journyx.com.
